NOTES: to use chemicals safely, a series of european directives has established a mandatory system of labels and safety data sheets, which allow you to identify the products, the dangers connected to them and the precautions to be taken. Therefore, it is essential to read and know how to interpret both the labels and the safety data sheets, on which the employer is obliged to inform. Make sure that the ppe is in excellent condition (check for any expiration date) and use it following the indications on the product safety sheet for the specific risks to be prevented. PLEASE REMEMBER TO FOLLOW THE APPROPRIATE DISTANCE MEASURES RECOMMENDED BY THE MINISTRY OF HEALTH.
